SKILLS

JOEL REVUELTA

SOFTWARE DEVELOPER

ABOUT ME

I'm a software developer studying at Epitech. I'm good at working with others and can adapt quickly to new situations. I'm currently looking for a part-time position to help me learn more while I continue my studies.

EDUCATION

EPITECH - European Institute of Technology 2022 - 2027

Software development and IT expert | Bachelor + Master's Degree

EXPERIENCE

NTT DATA Frontend Developer

Internship focused on developing and maintaining web applications using Angular and Java, while effectively collaborating within a large team.

Oct 23 - Dec 23 | Oct 24 - Now

PROJECTS

City Matcher

Winner project of the 2024 Extia Hackathon. Angular project that uses AI to search for the ideal city matching the user criteria

Raytracer

Render 3d images by simulating rays' interaction with objects, materials and lights to create realistic graphics.

Torch

Developed a neural network-based chessboard analyzer that generates, trains, and predicts game states from chess positions using FEN notation
