

Joel Revuelta Gómez

Software Engineer | Full-Stack & Systems

joel.revuel@gmail.com | +34 622 15 34 47 | Barcelona, Spain

About Me

Software Engineer specializing in backend architecture, systems, and full-stack development with experience in C++, TypeScript, and Python for high-performance applications.

Experience

Software Developer | NTT Data | Oct 2023 – Dec 2023, Oct 2024 – Aug 2025

- Co-developed a management system for the Blood and Tissue Bank (Banc de Sang i Teixits) using Java Spring Boot microservices and Angular.
- Designed reactive user interfaces and key operational workflows, ensuring optimal user experience.
- Implemented unit and integration test suites, improving software reliability in cross-functional environments.

Technical Skills

Languages: C++, C, Python, TypeScript, JavaScript, Java, Go

Frameworks: Angular, Next.js, NestJS, FastAPI

Tools & Infrastructure: Docker, GitHub Actions, Git, Linux, Conan

Databases: PostgreSQL, MongoDB, SQL

Projects

Area – Automation Platform | FastAPI, Next.js, React Native, PostgreSQL, Docker

- Architected scalable microservices with FastAPI, PostgreSQL, and a Next.js interface for multi-service automation workflows.

Raytracer – 3D Rendering Engine | C++, CMake, SFML, SDL2

- Multithreaded 3D rendering engine in C++ with dynamic material loading and realistic lighting simulation.

City Matcher – AI-Powered City Recommender | Angular, Node.js, OpenAI API | Extia Hackathon Winner

- Winner of the 2024 Extia Hackathon with an AI application (OpenAI API) for personalized destination recommendations.

Education

EPITECH - European Institute of Technology | 2022 – Expected 2027

Integrated Master's in Software Engineering & IT Expert (Bachelor 2025, Master's Expected 2027)

Languages

Catalan: Native | **Spanish:** Native | **English:** Professional Proficiency
